CH. SAMBHAJI NAGAR

SUMMARY

Results-driven Android Developer with over 4 years of hands-on experience in designing, developing, testing, and maintaining mobile applications across various industries. Passionate about staying current with industry trends and new technologies. Proven track record of delivering end-to-end solutions, from concept to deployment. Seeking to leverage my expertise to contribute to innovative projects and drive business growth.

EXPERIENCE

Software Engineer (Android) | PEOCIT Technologies

DEC 2021 - PRESENT | PUNE [REMOTE]

- Managed Android apps for 100+ cooperative banks, covering UPI payments, account management, and other banking functions.
- Developed and maintained high-quality apps, meeting deadlines consistently. Built new features, fixed bugs, and refactored legacy code with MVVM, RxJava, and LiveData.
- Collaborated closely with cross-functional teams to gather requirements and implement feature enhancements. Translated client requirements into technical specifications for Android applications.
- Projects: Mobile Banking, Venkatesh Multistate.

Android Developer | Aespaes Labs

MAY 2021 - OCT 2021 | PUNE [REMOTE]

- Worked on apps to schedule doctor's appointments, create 3D human anatomy in collaboration with the Unity team, and create TV apps from scratch.

Android Developer | Coding Visions Info tech

AUG 2020 - MAY 2021 | CH. SAMBHAJI NAGAR [ON-SITE]

- I have developed over three apps, including one for online tests with quizzes, a social media platform for posting and chatting, and a restaurant ordering app with a QR code menu.

Android Developer | ADT Software Solutions

JAN 2019 - AUG 2020 | CH. SAMBHAJI NAGAR [ON-SITE]

- I started my Android development journey in this firm, and I have work applications like an online e-learning platform, an event management app, and a student attendance system with a QR scanner.

EDUCATION

Master of Computer Application (MCA)

MGM's JNE College

CH. SAMBHAJI NAGAR | 2016 - 2019

SKILLS

Java • Kotlin • Jetpack • XML • Room Database • Data Binding • View Binding • Retrofit • Firebase

TOOLS

Android Studio • Git • Adobe XD • Figma

PERSONAL PROJECTS

Source Codes - Learn Android

Source Codes - Jetpack Compose

I built two apps in my spare time to learn Android development, catering to both beginners and advanced developers. They offer fully customized source code for Jetpack Compose, Kotlin, and Java. One of the apps has over 10,000 installs on the Play Store.
